CATALOGUE FOR 1887-8.

CIRCULAR FOR 1888-9,

With notice of the Course in Pharmacy of the Medical Department,

AND WITH ANNOUNCEMENTS OF THE

LAW, COLLEGIATE AND ACADEMICAL DEPARTMENTS
OF THE UNIVERSITY.

THE CHARITY HOSPITAL OF LOUISIANA,
Tulane Avenue, between Howard and Locust Streets, New Orleans.
(Six squares from the University Buildings.)

— NEW ORLEANS:

L. GRAHAM & SON, PRINTERS, 99 & 101 GRAVIER ST.

1888.

TULANE UNIVERSITY OF LOUISIANA.

(Formerly, 1847-1884, the University of Louisiana.)

PRESIDENT OF THE UNIVERSITY:

WM. PRESTON JOHNSTON, LL. D.

ADMINISTRATORS:

His Excellency FRANCIS T. NICHOLLS, *Governor of Louisiana.*
Hon. Jos. E. BREAUX, *Superintendent of Public Education.*
Hon. Jos. A. SHAKSPEARE, *Mayor of New Orleans.*
Hon. RANDALL L. GIBSON (*U. S. Senator*), *President.*
Hon. CHAS. E. FENNER (*Assoc. Justice Supreme Court of La.*), *Vice-President.*
JAMES McCONNELL, *Second Vice-President.*
P. N. STRONG, *Secretary and Treasurer.*
CARTWRIGHT EUSTIS, S. H. KENNEDY, R. M. WALMSLEY,
E. H. FARRAR, J. C. MORRIS, E. D. WHITE,
HENRY GINDER, T. G. RICHARDSON, M. D. Rt. Rev. J. N. GALLEHER,
JNO. T. HARDIE, W. R. STAUFFER, B. M. PALMER, D. D., LL. D.

MEDICAL FACULTY:

SAMUEL LOGAN, M. D.,

Emeritus Professor of Anatomy and Clinical Surgery.

T. G. RICHARDSON, M. D.,

Professor of General and Clinical Surgery.

STANFORD E. CHAÏLLÉ, M. D.

Professor of Physiology and Pathological Anatomy.

JOSEPH JONES, M. D.

Professor of Chemistry and Clinical Medicine.

ERNEST S. LEWIS, M. D.,

Professor of General and Clinical Obstetrics and Diseases of Women and Children.

JNO. B. ELLIOTT, M. D.,

Professor of the Theory and Practice of Medicine and Clinical Medicine.

EDMOND SOUCHON, M. D.,

Professor of Anatomy and Clinical Surgery.

A. B. MILES, M. D.,

Professor of Materia Medica, Therapeutics and Hygiene.

LECTURERS AND DEMONSTRATORS:

STERLING D. KENNEDY, M. D., Lecturer upon Diseases of the Eye and Ear
HENRY WM. BLANC, M. D., Lecturer on Dermatology.

RUDOLPH MATAS, M. D., Demonstrator of Anatomy.

A. McSHANE, M. D., Assistant Demonstrator of Anatomy.

A. L. METZ, Ph. G., Instructor of Practical Pharmacy.

MEDICAL DEPARTMENT.

This institution, founded in 1834 as the "Medical College of Louisiana," became in 1847 the "Medical Department of the University of Louisiana," and in 1884 the "Medical Department of the Tulane University of Louisiana." To April 1888, it had registered the names of 8,583 students, and of these it had conferred diplomas on 2,504, namely, on 2,329 graduates in medicine and 175 graduates in pharmacy.

The next annual course of instruction in this department now in the fifty-fifth year of its existence, will begin on Monday, October 22d, 1888, and end Saturday, March 30th, 1889.* The commencement will be held on Wednesday, April 3d. The first four weeks of the term will be devoted exclusively to Clinical Medicine, Surgery, Obstetrics and Gynecology in the wards and amphitheatre of the Charity Hospital; Practical Chemistry in the Chemical Laboratory, under the direction of the Professor; and Practical Anatomy in the spacious and well-ventilated anatomical rooms of the University.

The peculiar feature of the school is its unequalled hospital and anatomical advantages, to which the faculty would direct the special attention not only of medical students but also of graduates of other schools.

Clinical Instruction at the Charity Hospital.

It is universally admitted that without abundant anatomical and clinical material no medical school, however numerous or eloquent its professors, can possibly fit its pupils for practical professional life. It is scarcely necessary to state that it is only in large cities that such advantages can be procured; but it is of paramount importance that the opportunities there afforded should be properly utilized; that the students should be required, under the direction of the teacher, to examine patients for themselves, to keep record of cases, to note daily changes which may occur, and thus acquaint themselves by personal observation with the progress and termination of diseases and accidents. The mere introduction of a patient into an amphitheatre, and the discussion of his case by the professor in the presence of a large class, is no substitute for bedside instruction such as is offered by the great Charity Hospital of New Orleans; and no reduction of lecture fees, not even their entire abolition, can possibly compensate for the lack of such opportunities. The use of the wards of this noble institution, with its *seven hundred beds* and an annual occupancy thereof by from six to eight thousand sick, in addition to from twelve to fourteen thousand visiting patients, has been given by acts of the Legislature to the Professors of the Medical Department of the Tulane University of Louisiana for the practical instructions of its students, not only in Medicine and Surgery, but also in Obstetrics and Gynecology. Medical students are given access to the Charity Hospital, without payment of any hospital fees, and far better opportunities for the study of diseases therein than are usually enjoyed in the hospitals of other cities. For the study of the diseases of the Southwest, there is no field comparable to the wards of this hospital.

Between the buildings of the Medical Department and of the Charity Hospital, there are only six squares, which distance is readily walked within six minutes.

The following table of 5999 cases treated in the wards of the Charity Hospital, during the year 1887, will give some idea of the great advantages possessed by the Medical Department for the practical study of Medicine and Surgery:

*The attempt to prejudice students against New Orleans by the publication of unfavorable statements concerning the health of the city is unworthy of notice, except to inform anyone who may be ignorant of the fact that only two epidemics of yellow fever have occurred here since 1858. During the fifty-four years of the existence of the institution, no student has died from this cause during lecture term.

DISEASES.	NUMBER OF CASES.	DISEASES.	NUMBER OF CASES.
Fevers, and other general.....	1,761	Venereal	263
Nervous system.....	520	Bones and Joints.....	87
Circulatory system.....	228	Local Injuries and Diseases.....	896
Respiratory "	642	Eye and Ear.....	196
Digestive "	615	Skin.....	70
Genito-Urinary Organs.....	305	All other Diseases.....	107
Women (incl'g 160 obstetrical cases)	309	Total.....	5,999

In addition to these 5,999 "in-door" patients, there were 12,085 "out-door" or visiting patients, who are sent to the wards for diagnosis and treatment. These 12,085 "out-door" patients furnished for instruction the following valuable material, viz.: 4,641 Medical, 3,708 Surgical, and 614 Venereal cases; 305 Gynecological cases; 1,276 cases of diseases of children, and 1,541 cases of diseases of the eye, ear and throat.

The grand total of patients in the Charity Hospital was 20,375 in 1885; 19,699 in 1886; and 18,084 in 1887, of whom 5,760 were colored. There are 16 wards for females. Of the 52 wards in the Charity Hospital, there are 22 Medical, 14 Surgical, 2 Obstetrical, and 2 Gynecological wards, 2 for children, 4 for diseases of the nervous system, 2 for venereal diseases, 2 for diseases of the eye and ear, 1 for skin diseases, and 1 pay-ward; and all these wards, except the last one, are accessible to the students.

It is manifest that these facilities for *genuine* clinical teaching, which recent improvements in the hospital have greatly increased, are now unsurpassed by any medical college in the United States; and that such advantages in medical education are being more and more appreciated is attested by the increasing size of the classes.

All the professors are Attending Physicians or Surgeons of the hospital, and visit their wards daily, accompanied by the students, who are thus brought into immediate contact with the sick and wounded, and are taught practically auscultation and percussion, analysis of urine, the application of dressings, etc. Surgical operations are performed and lectures delivered upon selected cases in the amphitheatre of the hospital.

Special instruction is given to the candidates for graduation, who are, for this purpose, divided into classes, assigned to the respective professors in charge of the wards in the hospital, and required to keep records of cases under their care. The classes thus formed interchange courses, so as to enable the candidates to enjoy equal advantages. Competent Chiefs of Clinic aid the clinical teachers in developing to its full extent this system of instruction. Students who are not candidates for graduation make the daily hospital rounds with any of the clinical teachers. The following professors and their respective Chiefs of Clinic will be on duty the ensuing session:

PROF. T. G. RICHARDSON, M. D	CHAS. CHASSAINAC, M. D.
" S. E. CHAILLÉ, M. D	F. H. BRICKELL, M. D.
" JOSEPH JONES, M. D.....	HENRY BAYON, M. D.
" ERNEST S. LEWIS, M. D	STANHOPE JONES, M. D.
" JOHN B. ELLIOTT, M. D.....	G. B. LAWRAZON, M. D.
" EDMOND SOUCHON, M. D	C. L. SEEMAN, M. D.
" A. B. MILES, M. D	P. MICHINARD, M. D.
"	J. H. BEMISS, M. D.
"	P. E. ARCHINARD, M. D.
"	RUDOLPH MATAS, M. D.
"	JNO. J. LAURANS, M. D.

Chiefs of Clinic.

The regular lectures at the Hospital, on Clinical Medicine, by Professors Elliott and Jones; on Surgery, by Professors Richardson and Souchon; on Obstetrics and Diseases of Women and Children, by Professor Lewis; and on Pathological Anatomy, by Professor Chaillé, will be delivered in the amphitheatre, daily, from 8:30 to 12 A. M.

Post-mortem examinations are made in the presence of the class by the Professor of Pathological Anatomy.

Diseases of the Eye and Ear are taught in the eye-wards and amphitheatre of the Hospital, and constitute a part of the curriculum of the surgical chair.

Special instruction in diseases of the skin is given by the Lecturer on these diseases.

The Administrators of the Charity Hospital elect annually, by competitive examination in March, fourteen Resident Students, who are entitled to board and lodging in the institution free of charge.

Lectures.

Order of Lectures.—The programme will be so arranged that the lectures upon the elementary branches, taught by the four chairs of Chemistry, Anatomy, Physiology and Materia Medica, will occupy a somewhat larger proportion of hours during the first ten weeks of the session than the practical studies, Practice of Medicine, Surgery, Obstetrics and Gynecology. On this account it is very important that the students should enter promptly at the opening of the term.

Didactic Lectures.—Systematic didactic instruction in the various branches will be given daily, immediately after the Hospital clinics, in the central building of the University, situated on Tulane avenue, between Baronne and Dryades streets. The means for illustrating this course consist of models in wood, wax, plaster and papier maché of rare and beautiful workmanship, executed in London, Paris and Florence, expressly for the University; a complete series of specimens in *materia medica*; surgical and obstetrical instruments and appliances; a large collection of natural anatomical preparations; specimens in morbid anatomy; and a set of chemical and philosophical apparatus. The professor of Anatomy, after his lectures, teaches microscopic anatomy practically with specimens under the microscope.

The faculty call attention to the fact that the subject of Hygiene has been added to the regular curriculum of the school. One lecture a week will be delivered upon this important topic by the Professor of *Materia Medica*, Therapeutics and Hygiene. This course is obligatory upon students.

Requisites for Graduation.

- I.—The candidate must be of good moral character, and have attained the age of twenty-one years.
- II.—He must present evidence of having studied medicine for at least three years under the direction of a regular graduate or practitioner of medicine of good standing, including the time spent in attendance upon lectures.
- III.—He must have attended two full courses of lectures and of dissections in a generally recognized medical college, the last of which must have been in this institution.
- IV.—He must write a thesis on a medical subject and present it to the Dean at least one month before the close of the session.
- V.—He must pass a satisfactory examination before the faculty.
- VI.—He must have paid in full all college dues, including the graduation fee.

(Students who intend to present themselves for examination are advised to write their thesis during the summer vacation.)

PREPARATORY COURSE.

The Academical Department of the University offers the following course as preliminary to the study of medicine at Fifty Dollars; with the privilege of the Drawing Class.

Physics; Chemistry (and in Laboratory); Biology (and with Microscope); Botany; Rhetoric, German and English Literature.

This course, although recommended by the faculty, is not obligatory, but will be received as equivalent to one year's study in a physician's office.

TERMS PER ANNUAL SESSION.

	1ST. SESSION.	2D SESSION.
Matriculation Ticket.....	\$ 5 00	\$
General Ticket to the Lectures of all Professors.....	140 00	140 00
Ticket of Demonstrator of Anatomy.....	10 00	10 00
Diploma Fee (once only, when graduated).....	30 00
Total.....	\$155 00	\$180 00

After the total fees (for two full courses) of \$305, as above, have been paid, no fees (except for the diploma and for the demonstrator) are required for subsequent courses, however numerous. The payment of the total \$335 (diploma included) may be distributed over a three years' course, as follows, viz.: \$115 the first year, \$110 the second and \$110 the third year. All fees are payable in advance.

It will be noticed that the fees of the Department remain the same as those of the leading medical schools of New York and Philadelphia. Considering the unusual opportunities afforded for practical instruction, and the constant care and labor bestowed upon the pupils, the charges are reasonably low, and the Faculty, therefore, appeal to their professional brethren throughout the South and West to continue their support to an institution which does not seek to increase the size of its classes by pecuniary rivalry, but by offering *a full equivalent for its charges*.

Students who have attended and paid for two full courses, the last of which was in this institution, are thereafter entitled to attend lectures without charge; and it is the earnest desire of the Faculty that they should avail themselves of this privilege, to the extent of at least one additional course, before applying for graduation. It is gratifying to be able to state that many members of the class (one-third to one-half of the graduates) annually follow this course, and their high standing at the final examinations, their better preparation for the practice of their professions, and their more successful careers, more than compensates them for their longer attendance upon lectures.

As a still further inducement, the Faculty will hereafter permit students, who have attended and paid for two courses of lectures, the last of which shall have been in this institution, examinations upon one or more of the elementary branches taught by the Chairs of Chemistry, Anatomy, Physiology, and Materia Medica. These examinations, if successful, will not be repeated, but if the applicant should fail upon one or more of them, he will be granted a second trial upon these when he shall present himself for final examination.

Graduates of other respectable schools are admitted to all the privileges of the Department upon payment of the matriculation and half lecture fees; and are entitled, thereafter, to attend subsequent sessions gratuitously. They cannot however, obtain the diploma of the University without passing the regular examination, and paying, in addition, the usual graduation fee. Graduates are also given the privilege of attending special courses at less than \$20 each, provided that the tickets of more than two professors are purchased.

INSTRUCTION IN PHARMACY.

The Medical Faculty is also authorized by law to grant diplomas in Pharmacy, and has exercised this privilege since 1838, having now 175 graduates, 120 of whom have been graduated during the past eleven years. At the last session there were forty-one students in pharmacy.

These students are now required to attend the lectures given by the Professor of Materia Medica and Therapeutics; and by the Professor of Chemistry, receiving practical instruction in the Chemical Laboratory; and also to attend the instruction in Practical Pharmacy, given in the excellent Pharmaceutical Laboratory, established in 1887.

Attendance upon two such courses entitles the student in pharmacy to be a candidate for the degree of Master of Pharmacy, *provided* that he submits to the Dean a satisfactory certificate of at least two years' practical experience, under the instruction of a competent pharmacist.

The charge for the full course in pharmacy is \$60, or \$20 for each of the three branches; and also \$20 for the graduation fee. In addition, every student is required to pay the matriculation fee of \$5 (for the first session only), and to deposit a "breakage fee" of \$5, to reimburse any injury needlessly inflicted on the Pharmaceutical Laboratory and its contents; at the end of the session the "breakage fee" is refunded in whole or in part, depending on the charges incurred by the student. The total fees paid by a student in pharmacy are, therefore, \$70 for the first and \$85 for the second course.

Students in medicine who take also, the course in pharmacy, pay only the Pharmaceutical Laboratory fee of \$20, and the "breakage fee" of \$5; and this extra charge of \$25 must also be paid by students in pharmacy who may desire to attend more than two courses in the Laboratory. Students in pharmacy, as in medicine, are not charged for the tickets of professors after attendance upon two courses.

The Pharmaceutical Laboratory will be opened for instruction on Monday, October 22d, 1888.

Text Books, Etc.

The books mentioned below are recommended in preference to others; but *recent editions of any standard works* may be used in their stead. Only one text book on each branch is indispensable. The cost for a set of text books on all the branches is about \$45. The prices affixed below are now the lowest prices of the cheapest copies, usually in cloth.

SURGERY—Ashurst, \$5; Bryant, \$5.30; Treves, \$5; Gross, \$12.50.

PRACTICE OF MEDICINE—Flint, \$4.60; Loomis, \$5; Pepper, \$25; Reynolds, \$15. **DERMATOLOGY**—Van Harlingen, \$1.50; Hyde, \$3.65; Duhring, \$5.

PHYSIOLOGY—Foster, \$2.70; Yeo, \$2.60; Dalton, \$4.10; Landois, \$5.75.

PATHOLOGICAL ANATOMY—Green, \$2.10; Coats, \$4.60; Zeigler, \$4.75.

OBSTETRICS—Leishman, \$3.75; Playfair, \$3.25; Lusk, \$4.00.

GYNECOLOGY—Barnes, \$4.00; Thomas, \$4.00; Emmet, \$5.00.

DISEASES OF CHILDREN—Smith, West, each \$3.75.

CHEMISTRY—Fownes, \$2.30; Atfield, \$2.10; Bloxam, \$4.15; Miller, \$15; Fresenius, \$8.70; Roscoe and Schorlemmer, \$20; Ganot's Physics, \$4.20; Parish's Pharmacy, \$4.25; U. S. Pharmacopœia, \$3.50.

ANATOMY—Gray, \$5.00; Wilson, \$6.00; Richardson, \$3.50; Souchon's Résumé, \$2.

MATERIA MEDICA AND THERAPEUTICS—Wood, \$4.85; Rabuteau, \$7; Bartholow, \$4.20; National Dispensatory, \$5.85.

HYGIENE—Wilson, \$2.25; Parkes, \$4.15.

DICTIONARIES—Dunglison, \$5.30; Thomas, \$4.00.

PRACTICAL PHARMACY—Remington's Practice of Pharmacy, \$4.20; Prescott and Douglass' Qualitative Analysis, \$3.10.

Information about houses for board and lodging may be obtained by application to P. Martin, Janitor. The price usually paid by students is \$20 per month.

For any additional information address "Prof. CHAILLÉ, DEAN, P. O. Drawer 261." Letters thus *officially* addressed secure prompt attention even if the Dean be absent.

STANFORD E. CHAILLÉ, M. D.,

NEW ORLEANS, LA., JUNE, 1888.

Dean of the Medical Faculty.

DIDACTIC LECTURES.

THE NEW ORLEANS POLYCLINIC.

The SECOND SESSION of the NEW ORLEANS POLYCLINIC will open in APRIL, 1889,
and continue for Ten Weeks.

The advantages offered by the Charity Hospital cannot be surpassed by any other institution in the United States, and it will be the constant endeavor of the Faculty to make full use of them.

Instruction will be given in the Wards or the Amphitheatre of the Hospital, and will be entirely clinical and practical. Matriculants personally examine patients, observe the effects of remedies, handle instruments and perform operations upon the cadaver.

Send for Announcements or apply for information to:

Agents Influencing Local Action—Diminishing.....	Same—(continued)	Pelvis	Catarrhal Affections of Children
As elsewhere stated, one lecture per week will be devoted to the subject of HYGIENE.	All teachings illustrated clinically in the Amphitheatre of the Charity Hospital and at the bedside in the wards of the same institution	Diseases and Injuries of Genito-Urinary Organs, Syphilis and many other afflictions, not mentioned above, are demonstrated in the amphitheatre and wards of the Charity Hospital.	Surgical Diseases of Women are taught in the wards and amphitheatre of the Charity Hospital

GRADUATES OF 1888.

At the Fifty-fourth Annual Commencement, on March 28th, 1888, the Annual Address was delivered by Justice Charles E. Fenner; the Valedictory by Dr. Geo. H. Lee, of the graduating class; and degrees were conferred on eighty-three graduates, viz.: seventy-three in Medicine, and ten in Pharmacy.

Graduates in Medicine—73.

*The 14 Resident Students of the Charity Hospital.

†Students in Pharmacy 31, and 10 medical students were also students in Pharmacy; total Pharmacy students, 41.

N. B.—Total numbers of medical students, 274, viz.: 21 M. D.s gratuitous; 10 M. D.s ordinary students; and 243 students not M. D.s.

LAW DEPARTMENT.

FACULTY.

WILLIAM FRANCIS MELLEN, LL. D., DEAN.

RANDELL HUNT, LL. D., EMERITUS RECTOR,

Professor of Constitutional Law, Commercial Law and the Law of Evidence.

WILLIAM FRANCIS MELLEN, LL. D.,

Professor of Common Law and Equity Jurisprudence, and Lecturer on Criminal Law and the Law of Pleading.

HENRY CARLETON MILLER,

Professor of Admiralty and International Law.

HENRY DENIS,

Professor of Civil Law, and Lecturer on the Land Laws of the United States.

Tuition in this Department has been reduced from one hundred dollars to fifty dollars for a full course of lectures. No matriculation fee is now required. Diplomas will be granted without charge therefor. The fee of fifty dollars, payable in advance, is the only charge made by this Department for the lectures and instructions of an entire session.

The next annual session will commence Monday, November 19th, 1888, and terminate in the ensuing month of May.

All communications should be addressed to

WILLIAM F. MELLEN,

Dean of the Faculty of Law,

53 Carondelet Street,

New Orleans, La.

NEW ORLEANS, May, 1888.

TULANE COLLEGE AND UNIVERSITY.

FACULTY OF ARTS.

WM. PRESTON JOHNSTON, LL.D., CHAIR OF HISTORY AND POLITICAL SCIENCE.

BRANDT V. B. DIXON, A. M., CHAIR OF METAPHYSICS.

RICHARD H. JESSE, CHAIR OF LATIN.

ROBERT SHARP, M. A., Ph. D. (Leipsic), CHAIR OF ENGLISH AND GREEK.

JOHN B. FICKLEN, B. LET. (University of Va.) CHAIR OF ENGLISH HISTORY AND RHETORIC.

J. HANNO DEILER (Royal Normal College of Munich), CHAIR OF GERMAN LANGUAGE AND LITERATURE.

ALCÉE FORTIER, CHAIR OF FRENCH LANGUAGE AND LITERATURE.

JAMES ROHDE, CHAIR OF SPANISH.

J. L. CROSS, A. B. (Va. Mil. Inst.), CHAIR OF MATHEMATICS.

FLORIAN CAJORI, B. S., CHAIR OF APPLIED MATHEMATICS.

BROWN AYRES, B. Sc. (Stevens Institute), (Fellow of Johns-Hopkins University), CHAIR OF PHYSICS.

JOHN M. ORDWAY, A. M. (Dartmouth), CHAIR OF APPLIED CHEMISTRY AND BIOLOGY.

GEORGE GESSNER, A. M., PROFESSOR OF GREEK.

JOHN W. CALDWELL, A. M., M. D., CHAIR OF CHEMISTRY AND GEOLOGY.

STANFORD E. CHAILLÉ, A. M., M. D., PROFESSOR OF PHYSIOLOGY AND HYGIENE.

WILLIAM WOODWARD (Massachusetts Normal Art School), PROFESSOR OF DRAWING.

ELLSWORTH WOODWARD, PROFESSOR OF DRAWING.

JOSEPH F. JOOR, M. D., PROFESSOR OF BOTANY.

ARTHUR S. WHEELER, A. M., ASSISTANT PROFESSOR OF PHYSICAL GEOGRAPHY AND BIOLOGY.

TULANE HIGH SCHOOL FACULTY.

ASHLEY D. HURT, A. M., HEAD-MASTER OF HIGH SCHOOL AND PROFESSOR OF LATIN.

STANFORD E. CHAILLÉ, A. M., M. D., PROFESSOR OF PHYSIOLOGY AND HYGIENE.

J. HANNO DEILER, PROFESSOR OF GERMAN.

ALCÉE FORTIER, PROFESSOR OF FRENCH.

JAMES ROHDE, PROFESSOR OF SPANISH.

WILLIAM WOODWARD, PROFESSOR OF DRAWING.

ELLSWORTH WOODWARD, PROFESSOR OF DRAWING.

ARTHUR S. WHEELER, A. M., ASSISTANT PROFESSOR OF PHYSICAL GEOGRAPHY AND BIOLOGY.

JOHNSTON ARMSTRONG, ASSISTANT PROFESSOR OF LATIN AND ENGLISH.

ARSENE PERILLAT, B. Sc., ASSISTANT PROFESSOR OF PHYSICAL SCIENCE AND MATHEMATICS.

CHARLES G. GILL, Ph. D., ASSISTANT PROFESSOR OF GREEK.

J. W. PIERCE, A. M., ASSISTANT PROFESSOR OF MATHEMATICS.

S. P. DELAUP, ASSISTANT PROFESSOR OF FRENCH AND GERMAN.

JOHN H. KENNARD, ASSISTANT PROFESSOR OF MATHEMATICS.

ALPHONSE F. DELBERT, B. S., INSTRUCTOR IN MACHINE CONSTRUCTION AND DRAWING.

ROBT. D. AGNEW, INSTRUCTOR OF ELOCUTION.

D. R. BUCHANAN, INSTRUCTOR IN PENMANSHIP AND BOOK-KEEPING.

HENRY J. MALOCHÉE, INSTRUCTOR IN DRAWING.

OTIS ATHERTON, INSTRUCTOR IN IRON-WORKING.

J. O. HASSAM, INSTRUCTOR IN WOOD-WORKING.

FRED. N. KEMP, INSTRUCTOR IN WOOD-WORKING.

VICTOR LEOVY, A. B., INSTRUCTOR IN STENOGRAPHY.

H. V. MIELLY, INSTRUCTOR IN DRAWING.

ERNEST L. DIMITRY, INSTRUCTOR IN DRAWING.

C. H. CHARLTON, INSTRUCTOR IN DRAWING.

SUMMARY.—FACULTY OF ARTS.

ACADEMIC STAFF, 1887-1888.

PRESIDENT AND PROFESSORS,		20
ASSISTANT PROFESSORS,		7
INSTRUCTORS,		11
Total,	38.	

TULANE UNIVERSITY receives as University Students the graduates of colleges of established reputation, as Students for the degrees of Master of Arts and Doctor of Philosophy, with full election in studies.

TULANE COLLEGE has six equivalent courses of study extending through four years.

TULANE HIGH SCHOOL has four equivalent courses of study extending through three years; Mathematics, English, Drawing and Manual Training are required in all the courses. For admission to the Preparatory Class of the High School, pupils must be twelve years of age, of good moral character, and must be proficient in Reading, Writing, School Geography, Arithmetic through Percentage and its applications, and in Reed and Kellogg's graded lessons in English, or in an equivalent amount of work in some other book.

MECHANICAL COURSE—Shops have been provided for the manual training in wood-working and iron-working. Professor Ordway, late of the Massachusetts Institute of Technology, is the Director of this Course. He is assisted by the two Professors Woodward, of the Boston Manual Art School, as teachers of Drawing, by Mr. J. O. Hassam, and F. N. Kemp, as instructors in wood-working, and by Mr. Otis Atherton in Iron-Working.

Expenses.—The tuition fee for a session of nine months is \$50, payable in installments of \$12.50 at the beginning of each quarter session. The charge of fifty dollars per annum is uniform for students of the High School, College and Law Departments. In the Law Department the annual charge of \$50 is paid at matriculation. Candidates for the degree of Doctor of Philosophy are exempt from tuition fees.

The next annual session of the Academic Department begins October 8, 1888, and closes Thursday, June 20, 1889.

LIBRARIES.

The State Library, containing 26,000 volumes, is deposited in the Law Building. Students have the use of books free of charge. This Library includes a very valuable collection of Foreign and American Law Books and Law Reports, and of historical and documentary works.

The Fisk Library contains about 9,000 volumes, and is increased yearly at the rate of about 1000 volumes. It contains the best standard works and current literature, including all the leading periodicals. The Reading Room of this Library is open to the public, and every facility is given to readers for finding the books and information they desire.

The Tulane Library contains valuable scientific and literary publications and is a depository of public documents; constant accessions are made to it through donations and purchase. It already contains about 7,500 volumes. The Medical Section of the Library numbers about 3,400 volumes.

Free Lectures—A course of free lectures and lessons in free-hand and mechanical drawing is given under the auspices of the University, by Profs. W. & E. Woodward, during the evening, chiefly for the benefit of persons employed in mechanical pursuits.

Free instruction is also given, by the same professors, to classes of teachers, every Saturday morning.

Free public lectures are given in Physiology and Hygiene weekly.

SCHOLARSHIPS.

The University grants about one hundred and fifty free scholarships in the Collegiate and High School Departments, which are filled by nomination of State Senators and Representatives of Louisiana and by the Mayor of New Orleans.

New Orleans offers unusual advantages for acquiring a practical knowledge of modern languages. Good board can be obtained at reasonable rates in cultivated families selected by the Faculty, where European languages are constantly spoken.

The institution is Christian but not sectarian, and this is construed as extending the largest liberty of invitation to all who love the light of knowledge. The Tulane University is now on the sound basis of a living income, with a corporation secure in its tenure of office and consistent in its plans and purposes, and with the prestige of a State institution, and of popular favor to aid in its honorable career.
